# Hand held scanners

## Touch65 Pro scanner

Contact CCD (Charged Couple Device) scanner.  
Scan range 0-50 mm.  
256 scans per second.  
65 mm reading window.  
Manual or continuous trigger mode.  
ISBN programmable.  
5 year manufacturer's warranty (1 year on cable).

Touch65 Pro	PS2 cable	<b>81873</b>
Touch65 Pro	USB cable	<b>81874</b>
Rubber base stand		<b>81875</b>

## Fuzzy 3660/3860 scanner

Contact CCD (Charged Couple Device) scanner.  
Scan range 0-15 mm.  
100 scans per second.  
65 mm or 80 mm reading window.  
Manual or continuous trigger mode.  
ISBN programmable.  
1 year manufacturer's warranty.

Fuzzy 3660	PS2 cable	65 mm	<b>81843</b>
Fuzzy 3660	USB cable	65 mm	<b>81846U</b>
Fuzzy 3860	PS2 cable	80 mm	<b>81846</b>
Fuzzy 3860	USB cable	80 mm	<b>81843U</b>
Replacement main cable (connects into scanner)			<b>81862</b>
Replacement cable wedge (connects into PS2)			<b>81848</b>
USB adapter cable			<b>81847</b>
Rubber base stand (suits Fuzzy 3660 & 3860)			<b>80859</b>

## FuzzyBT MBC6890 scanner

Bluetooth technology allows cable free scanning up to 100 m from the PC.  
Contact CCD (Charged Couple Device) scanner.  
Scan range 0-150 mm.  
Manual trigger mode.  
ISBN programmable.  
1 year manufacturer's warranty.

FuzzyBT MBC 6890	PS2 cable	<b>81889</b>
FuzzyBT MBC 6890	USB cable	<b>81890</b>

## Portable scanners for stocktake

## Portable 1067M scanner

Portable memory scanner for stocktaking.  
Contact CCD (Charged Couple Device) scanner.  
Scan range 0-10 mm.  
200 scans per second.  
67 mm reading window.  
Manual or continuous trigger mode.  
ISBN programmable.  
1000 barcode memory capacity.  
Holds all data in memory while cable is being changed, while disconnected and when batteries are flat.  
To switch between fixed and portable mode simply re-scan the program sheet, unplug the cable and click the power pack in place.  
To download the read data, remove the power pack, reconnect the cable and re-scan the program sheet. Takes 2 x AAA batteries (supplied).  
3 year manufacturer's warranty (1 year on cable and battery box).

Portable 1067M	PS2 cable	<b>81859</b>
USB adapter cable		<b>81842</b>
Replacement PS2 cable		<b>81860</b>
Replacement battery pack		<b>81840</b>
Rubber base stand		<b>81861</b>

**Remember to tell us which library software you'll be using with this scanner**

## Gryphon M100 cordless scanner

Portable (up to 30m) scanner for stocktaking.  
Long range CCD (Charged Couple Device) scanner.  
Scan range 0-350 mm.  
270 scans per second.  
Manual or continuous trigger mode.  
ISBN programmable.  
"Green spot" for fast intuitive reading.  
Includes 12 V power supply, 3 hour charge time, return to base after use.  
2 year manufacturer's warranty (1 year on base and charger).

Gryphon M100	PS2 cable and base station	<b>81855</b>
USB adapter cable		<b>81855U</b>

Scanner technology is constantly changing so please refer to [www.raeco.com.au](http://www.raeco.com.au) for the latest range

Also available in light grey

## Voyager MS9540 scanner with hands free stand

Laser scanner.  
Scan range 0-297 mm.  
72 scans per second.  
Manual or continuous trigger mode.  
ISBN programmable.  
5 year manufacturer's warranty (1 year on cable).

Voyager MS9540	PS2 cable	light grey	<b>81863</b>

VoyagerBT MS9535	USB cable	black	<b>81888</b>

## Quickscan 6500 scanner with hands free stand

Contact CCD (Charged Couple Device) scanner.  
Scan range 0-300 mm.  
450 scans per second.  
Triggerless design.  
ISBN programmable.  
5 year manufacturer's warranty (1 year on cable).

Quickscan 6500	PS2 cable	black	<b>81880</b>
Quickscan 6500	USB cable	black	<b>81881</b>
Quickscan 6500	PS2 cable	grey	<b>81882</b>
Quickscan 6500	USB cable	grey	<b>81883</b>

### Notes on scanners

- USB connectivity is only suitable for Windows '98 and above and will not work with Oasis and other DOS based programs
- To enable USB and ISBN connection in most cases an additional barcode will need to be scanned from the set up manual supplied
- Always remember to use a paperclip to remove the cable from the scanner

**CCD Scanners** are hand held contact scanners and generally read barcodes from 0-25mm away. New technology has enabled long range CCD scanners which can read up to 410mm away (subject to barcode width) and can be used with a stand for hands-free scanning. They scan by taking an image of the barcode and then decoding it. With no mirrors, prisms or other moving parts they are very durable.

**Laser scanners** are line scanners that have a mirror which moves light back and forth to decode, they read from 25-250 mm away (subject to barcode width). Being able to read from a distance the scanner can be placed in a stand providing a hands-free option for fast scanning.

# Label printers

## Desktop label makers

### DYMO LabelMANAGER 150

Compact, easy to hold label maker. Designed for handheld or desktop. Prints on 6, 9 and 12 mm wide D1 label tapes. Features big, easy to read 13 character display. 1 or 2 line printing. 5 font styles in 3 sizes. Includes effects such as underline and 5 box styles. Uses 5 x AA batteries or optional AC adaptor.

LabelMANAGER 150	<b>26018</b>
AC Adaptor	<b>26016</b>

### DYMO LabelMANAGER 350

Prints on 6, 9, 12 and 19 mm wide D1 tapes. Up to 3 line printing. Automatic tape cutter. 10 label memory plus last 15 labels are stored for fast recall. 6 fonts in 5 sizes and over 150 symbols.
